## Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

No exposure standards have been established for this product, however, as with all chemicals, exposure should be kept to a minimum.

Biological Limit Values: No Biological limit allocated.

Engineering Controls: Ensure sufficient ventilation to keep airborne levels below the exposure limit.

Respiratory protection: If engineering controls do not maintain airborne contaminant concentrations at a level which is adequate to protect worker health, an approved respirator may be appropriate.

Hand protection: Wear protective gloves if prolonged or repeated contact is likely. Glove suitability and breakthrough time will differ depending on the specific use conditions.

Eye Protection: Safety glasses with side shields.

Skin and body: Wear appropriate clothing including chemical resistant apron where clothing is likely to be contaminated.
